

CHAPTER MEMBER BENEFITS

Superior Education

The Texas CRS Chapter sponsors 2-4 CRS Core Courses each year, in several locations in Texas. CRS Designees may attend for half price! Non-designated Texas CRS Chapter members receive a discount! CRS education is considered the best in the industry, with courses that give practical, ready-to-use skills and techniques and that are continuously updated to stay current with the market.

Networking Opportunities

Bimonthly luncheons and Member social events provide members with the opportunity to meet and mingle with top REALTORS® from the area. We enjoy informative speakers from our industry and our community who keep us alerted as to what currently happening.

Volunteer and Leadership Opportunities

Participation in the Chapter committees benefits both the Chapter and you, the member! Our leadership is elected from those who have served as chairman of a Chapter Committee.

Community Service

Our annual "Chapter With a Heart" Project allows us to go into the community and help those in need, through both our donations and our time.

Referral Network

The CRS Referral network is second to none and can boost your business and your bottom line!

TexasCRSChapter.com

Our chapter website gives you access to our membership roster, our calendar of events and news from the Chapter as well as the National Council. You have the ability to register and pay online for all classes and luncheons, and there are links to CRS Council website for online classes and products.

Recognition

The CRS designation is known in the industry as the PhD of real estate. With the designation and participation in your local chapter you are set apart from other REALTORS® which makes you one of the best of the best!
